

HOW TO HAVE IT ALL IN LIFE AND BUSINESS

MIKE PEPPLER

1. CREATIVITY - the imagination

is the Workshop of the mind, where ideas are constructed through visualization, day dreaming and conceived with the assistance of a higher intelligence

2. CLARITY - the idea

visualized in the form of a clear plan, direction and destination must be clear. Clarity is like a road map required to clearly see where one must go.

3. COURAGE - the ability

to take ACTION (this is where most begin to fail). Become fearless in pursuit of what was once an idea, that is now a Burning Desire! Fearless doesn't mean you feel no fear, it simply means you fear less. Courage is acting in spite of fear. (fortune favors the bold and those who act are the ones that are awarded Victory!)

4. COMMITMENT - the force

that creates everything requires Ruthless Commitment to ones Burning Desires! Commitment is a mindset (this is where most lack the resolve to see a thing through) Commitment requires a 10 on a scale of 1~10, anything less will provide a result less than desired.

5. CONSISTENCY The key

to Creating The Magnificent is consistent daily small actions that create The Compounding Effect (this is where 80% fail). Consistency is acting in spite of feelings, emotions, circumstances and situations. One must plant seeds EVERY day to grow a crop of Prosperity

6. COLLABORATION The assistance

of others must be pursued. We cannot do life or business alone. Seeking others that are like minded and on a path of growth and contribution is a must. Who we Choose to spend our time with will either create expansion or contraction.

7. CONTINUOUS GROWTH - the development

of personal and professional growth is a must! What grows expands and has added value, what doesn't grow contracts and creates atrophy. It is vitally important to invest in ones self.
